The Board proceeded to hear all persons interested or whose property is affected by the filing of the several streets or parts of streets mentioned and described in Declaratory Resolution No. 8. 1913. and authorized by said resolution.
The Board heard all interested persons and considered all remonstrances filed; the Board being fully advised decided that the benefits accruing to the property liable to be assessed for said improvements are equal to the estimated cost of the same, as shown on the estimate on file with said Board, and thereupon said Board on motion of Mr Austill, seconded by Moore - modified said declaratory Resolution by rescinding that part of it which authorized and ordered said filing on Broad street between the big 4 railroad and Smithboro St. on Church street East of Center street and West of Green Ave. on Plumb street between Main and Church Street;

on Chestnut street between Main and Church street;
on Green street between Front street and Church street;
on Jones street north of the bridge over Lick Branch,

and it appearing that filing of the north half of Main street
between Mulberry street and L. & N. Railroad is impracticable
on account of the occupation of said street by the tracks of the
Interurban Railroad Company and by Lick Branch - said resol-
ution is further modified by rescinding it in so far as it
authorizes filing the north half of said street between said lines.
And said resolution was left unchanged as to all the other
streets and part of streets mentioned therein, and it further
appearing that no sufficient remonstrance had been filed
against said filing on any other street, upon motion of Moore
seconded by Dilby said resolution as modified was finally
adopted providing for the filing of.
Church street between Green and Center streets.
Center street between Front street and Church street.
Poole street between Front street and Second street.

resolution and in the specification for such work. Each member
of the Board voted for the adoption of and confirmation of
said resolution.
